**CHILDREN'S NOISE CAUSES TROUBLE**

Member of One of Virginia's First Families Made a Weak and Nervous Wreck by Her Own Children. How She Recovered.

Wily, Va.—"I was so weak and nervous that I could hardly be up," writes Mrs. Dora Stauffer, of this place. "I could not bear the noise of my children and had terrible pains. Every breath I took made the pain more intense. My heart would flutter and I fell off a great deal. My sleep was made restless by scary dreams, and I had to lie awake many hours every night. My appetite was bad and I had to force myself to eat. Such was my condition when I decided to take Cardui.

One week after I commenced the pains had left me, and in three weeks I felt like another person. Now I am fully recovered and feel right well."

Mrs. Stauffer is a member of one of the first families of Virginia, and you can take her word for what she says about Cardui.

What is Cardui?

A woman's tonic, a strengthening medicine, such as all women need at times.

Used successfully during the past century by over a million women, of every age, in all walks of life, it has earned a reputation for helping sick women back to health. Try it.

## DIAMOND WEDDING WILL BE CELEBRATED

Archduke and Archduchess Rainier Have Completed Sixty Years of Married Life.

By LA MARQUESE DE FONTENOY.

OLDEN weddings are very rare in Europe. Diamond weddings are even still rarer. In fact, I cannot recall any at the present moment. The nearest approach thereto having been George III. of England, who, although a lunatic, lived to spend, with his wife, the fifty-seventh anniversary of their wedding, and old Emperor William of Germany, who celebrated with Empress Augusta the fifty-ninth anniversary of their wedding only a few months before his death.

That is why the diamond wedding of Archduke and Archduchess Rainier of Austria to-morrow, when they will celebrate their sixty years of singularly happy marriage, will be made a subject for rejoicing throughout the length and breadth of the Dual Empire.

The only sorrow of this threescore years of matrimonial alliance has been that it has remained childless. But they have made an adopted child of their niece and daughter-in-law, Countess Waldeck, in her own right, and daughter of the late Archduke Henri, and of his morganatic wife, Duchess Hofmann, both of whose deaths took place with tragic suddenness, at an interval of only a few hours, at Vienna. Their orphan daughter, Countess Waldeck, is now the Countess of Enns, and is the wife of Prince of Campoformido, and is the heiress of the great wealth of her uncle and aunt.

Archduke and Archduchess Rainier are among the richest members of the House of Hapsburg. They are a homely old couple—I do not mean it in the sense of plain looking—who, although possessed of one of the finest palaces in Vienna, and of innumerable chateaux and palaces elsewhere, were formerly never so happy as when they could slip away from Vienna, and travel about without gentlemen or ladies in waiting, under the very disguise of a bourgeois of name, in Switzerland, or else turning up in England, where they would take up their quarters at Worthing, Bognor, or other of the quieter seaside resorts, and the coast of Sussex; not at the leading hotels, but in some unpretentious village, and in the quietude of a small archduchess used sometimes to be invited to joke with acquaintances who knew of their sojourns in England and who pronounced fondness for that peculiarly English national dish of boiled mutton and caper sauce.

The archduke is doubly related to the reigning house of Italy, his mother having been a princess of the house of Savoy, while his sister, Archduchess Adelaide, was the wife of the late King Victor Emmanuel. He was, therefore, an uncle of King Humbert, and is a grandchild of the present King of Italy. The archduke and archduchess are next to the Emperor, the most popular members of the House of Hapsburg, and although a soldier through and through, his country being indicated to him for the complete conquest of the Latin world, he has commanded for so many years, he has all his life long been the one Austrian prince of the blood who has never been a prisoner of war, and is other as a patron of everything pertaining to science and art. To him, indeed, are the Austrians indebted for the creation of the magnificent science and art museum at Vienna, and many similar institutions throughout the empire. It was he, too, who was the chief organizer and promoter of the great international exhibition of Vienna in 1873, and of the international dramatic and musical exhibition held at the Prater in 1889.

Moreover, the Austrian scientific world owes to him the possession of what is probably the rarest collection of ancient papyrus records and manuscripts of one kind and another of its kind, and although a soldier through and through, his country being indicated to him for the complete conquest of the Latin world, he has commanded for so many years, he has all his life long been the one Austrian prince of the blood who has never been a prisoner of war, and is other as a patron of everything pertaining to science and art. **PUT OUT OF COMMISSION.**

Cambridge Firemen Draw Line at Gold Coast Brigade.

Cambridge, Mass., February 19.—The Harvard Gold Coast Fire Brigade has been put out of commission by Chief Nat Bunker, of the local fire department, and insurance rates have again

known to have been in existence, writings of the Fathers of the Christian Church dating from the first five centuries of the Christian era, innumerable classical texts, and to have escaped its destruction by Omar, and papers dating from the Moslem and even earlier times.

The annual service, in memory of the death of Louis XVI., was held at the church of St. Louis, in Paris, on the anniversary of his execution, in a rather confused manner. The members of the church of Orleans had a solemn mass for him celebrated in the Church of St. Germain Auxerrois, which was attended by those of the real royal family of Bourbon, living in France, and by representatives of the old nobles. There was a service held in the Church of St. Louis, in Paris, on the anniversary of his execution, in a rather confused manner. The members of the church of Orleans had a solemn mass for him celebrated in the Church of St. Germain Auxerrois, which was attended by those of the real royal family of Bourbon, living in France, and by representatives of the old nobles.

Finally, there was the mass celebrated in St. Elizabeth Church, at the instance of "Prince" John de Bourbon, the senior of that tribe of pseudo Bourbons who are descended from Naundorf, the so-called Dauphin, and who claimed to be the son of King Louis XVI., and of Queen Marie Antoinette, and to have been arrested out of the Temple prison, instead of having succumbed to maltreatment at the hands of his father, Simon. This "Prince" John de Bourbon is a win merchant of Bercy, and I have before me some of his printed circulars inviting me to purchase his wines, and to recommend him to my friends. In the time that he can spare from his wine concern at Bercy he maintains one of those imitation courts of which quite a number flourish at Paris, and I am sorry to say that there are quite a large number of Parisianized Americans who figure among the members of such a court, as, for instance, the Countess Spottiswood Mackin, who was Miss Louise de Bourbon, of the "Baroness" Henri de Beaumont, etc., as well as Mr. and Mrs. Donald Harper, Mr. and Mrs. Robertson, and others. With the exception of the title of Countess Spottiswood Mackin, which she obtained from the Vatican, through the good will of the late Cardinal Macchi, most of the nobiliary dignities of "Prince" John de Bourbon, as "Baroness" Henri de Beaumont, etc., as well as Mr. and Mrs. Donald Harper, Mr. and Mrs. Robertson, and others. **TO BREAK INTO WALL STREET.**

Theodore Roosevelt, Jr., Will Soon Start as Bond Salesman.

New York, February 18.—Theodore Roosevelt, Jr., is about to break into Wall Street. He was at the office of the Stock Exchange firm of Britton, Grissom & Jenks yesterday morning looking at the stage setting of Wall Street affairs, and admitted that he hoped eventually to join the army of finance. He would not discuss his reasons for abandoning the career of a factoring business, which he took up at Thompsonville, Conn., in 1908, and which kept him so busy that he could not get down to New York to see his father, and he said he was going back to San Francisco, where he has been working in the career of a rug business since his marriage. He will remain on the Pacific coast for another month, more or less, before returning to New York to begin his Wall Street career.

A member of Britton, Grissom & Jenks said yesterday that young Mr. Roosevelt was going to start as a bond salesman.

**Want Beautiful Hair? Use This Shampoo**

"The reason so many women have dull, brittle, stringy hair—hair that splits at the ends, fades and falls out—is because of employing alkali shampoos. This robs the hair scales of their required oil and causes brittleness of the hair and profuse dandruff," writes Mrs. Mae Martin, in the New York Daily Record.

"An inexpensive and really delightful shampoo can be had by getting a small package of catbox from the druggist and dissolving a teaspoonful in a cup of hot water. This mixture should be poured slowly on the scalp and rubbed up well. The catbox creates a thick white lather that cleanses, soothes and invigorates. After rinsing, the scalp is left clean and pliant, while the hair is lustrous, silky and easy to do up."

dropped to a normal scale.

The college boys with millions had conceived a fine idea, and it was to organize a fire brigade for the purpose of aiding the city fire department in extinguishing fires. There was to be a big chief, deputy chiefs, district chiefs, captains, lieutenants, hosemen, laddermen and some privates. On paper the scheme was a splendid one, and the boys were to be drilled and exercised for the summer and fall months.

"We do not want the help of the Gold Coast Brigade. We don't want that kind of help. If the Harvard boys come to the fires we will put them outside the fire lines, just as we do others who are in our way."

He added on the side that it would be a shame for these youngsters to get their feet wet.

**Institute for Colored Teachers.**

(Special to The Times-Dispatch.) Spotsylvania, Va., February 19.—On Saturday last a teachers' institute for the colored people was held in the courthouse here, and was presided over by District Superintendent James Ashby, of Stafford county. The attendance was unusually large and several addresses of special merit were delivered. The schools are all under the auspices of colored teachers, and the attendance of pupils upon the schools is far better than at any time heretofore reported. In addition to the teachers present there was a large audience of other colored people, who are interested in the intellectual culture of their race.
